SIU School of Law
Law Student Employment
General Information
2017 - 2018

Your applications are due to Kristy White in Room 139

In the Spring Semester, applications for law school employment are accepted in the School of Law for the following academic year. In some instances this acceptance takes place in the fall semester, and all information below applies. All law students are eligible for such work opportunities.

This document describes how to obtain those positions. Students should read this document carefully and address any questions to Kristy White in the Administrative Suite.

Wages:

All law students hired in the School of Law will receive an hourly wage of $11.60 an hour.

Positions:

A list of available positions is posted on the law school website in the spring semester.

Law students are also able to obtain other positions outside of the School of Law but within the SIUC system including, but not limited to the following offices.

- Student Legal Assistance
- University Legal Counsel
- Paralegal Program

Students wishing to apply for one of these positions do not need to go through the School of Law student employment application process described in this document but should contact the above offices directly for information on how to apply. If you accept a position outside the School of Law, especially a graduate assistantship, please advise the business manager or designee as this may effect employment within the School of Law.

Students who are employed outside the School of Law but within the SIU system are not eligible for a tuition waiver regardless of the nature of employment.

Hours:

As a general rule, law students will work for the faculty or staff member for a predetermined number of hours per week not to exceed 20 hours per week. Please note that some positions may have varying hours and a student may not work for the number of hours promised by a staff or faculty member. It is up to the student to discuss with a faculty of staff member if he/she is not
working the number of hours he/she desires. A law student may hold more than one student work position, but cannot work more than 20 hours per week.

**Time Reports:**

Students hired to a student work position will be required to complete and submit signed time reports every 2 weeks to the School of Law Business Manager or designee. Students will be paid at the hourly rate based upon the actual number of hours worked during the pay period.

**Application process:**

To be considered for law school employment, law students must do the following in the spring semester:

1. Complete an application for law school employment. The application form can be found on the law school website or in Law Student Services room 139.

2. Be registered as a student in the School of Law for at least 6 hours during the fall and spring semester or 3 hours during the summer semester.

**Interview and selection process:**

Faculty and staff members will review all applications and contact the student about whether an interview or additional information is required.

**Students who are offered a position:**

Students offered a position for the summer, fall, or spring semesters should complete the following procedures at the beginning of the semester and prior to beginning work.

1. Go to Salukinet and download a Student Employment Referral form from your personal records using the My Finances tab.

2. Bring the referral to the Receptionist in room 130 for completion and additional paperwork. At this time the Receptionist will complete all other forms necessary for employment including the Ethics form required by the State of Illinois. A copy of passport or driver’s license and Social Security card will be required at this time.

3. Go to the Financial Aid Office with the completed referral and additional paperwork and you will be given an Authorization to Begin Work Card. This Card should be returned Kristy White in room 139.

Students should know that all of this work must be done in person, not by phone, e-mail or campus mail. Failure to complete these steps before beginning work may result in a student not being paid for work completed.
Once you have completed the hiring process for student employment in the School of Law, you will remain on the payroll until you complete the requirements for graduation or until such time as you inform the business manager you would like to be removed. Please keep in mind that once you are removed from the payroll, should you choose to be reemployed, you will be required to complete the entire hiring process again. As long as you are on the School of Law payroll, you will be required to complete the annual On-Line Ethics Training with all other university employees with no exceptions.
